

SECTION 3

**The Schedule for Independent Assurance Sampling and Testing
can be found in the Materials Manual Of Instruction, Part 8,
Chapter 4, Section 1012**

SECTION 4

Minimum Materials sampling and testing frequencies schedule for Quality Management Plans (QMP's)

Material Type or Type of Construction	Suppliers Quality Control Testing	UDOT's Verification Testing Frequency
Cement	per Quality Management Plan	Two per month per supplier, randomly selected
Fly Ash	per Quality Management Plan	One per month per supplier, randomly selected
Reinforcing steel	per Quality Management Plan	Randomly select one sample from each five heats per supplier
Epoxy Coated Reinforcing Steel	per Quality Management Plan	Randomly inspect one in five shipping days per supplier
PG Binders	per Quality Management Plan	One random sample per day at contractor's supply tank
Emulsions (Excluding chip seal Emulsions)	per Quality Management Plan	One per month per supplier, randomly selected
Hydrated Lime	per Quality Management Plan	One random sample per supplier, per week during paving season.
Reinforcing Steel Galvanized Coating	per Quality Management Plan	Randomly inspect one in five shipping days per supplier

SECTION 5

Quality Management Plans (QMP's)

502	Cement
503	Reinforcing Steel Epoxy Coating
504	Reinforcing Steel
505	Precast/Prestressed Concrete Structures
506	Ready-Mix Concrete
507	Fly Ash and Pozzolan
508	Asphalt Emulsion
509	Asphalt Binder
510	Hydrated Lime
511	Concrete Pumping Contractors
512	Reinforcing Steel Galvanized Coating
